

Not all AEDs are created equal

Whether you are an experienced rescuer or a first-time responder, you will appreciate how the Powerheart® G5 AED combines ease of use, reliability and advanced technology to help victims survive sudden cardiac arrest.

Custom Solutions

Intellisense™ CPR (ICPR) Feedback

Four distinct text/voice corrective CPR prompts for rate, depth and recoil.

Rescue Ready®

Conducts self-tests on pads, battery and internal circuitry.

RescueCoach™

Guides users through each critical step of the rescue with user paced voice/text prompts.

Dual-Language

Change from primary to secondary language in the push of a button.

Rescue Ready Services

Your AED needs to be ready the day you need it, not just the day you buy it. Having a comprehensive AED management program in place will help ensure you, and your AEDs, are ready for the rescue.
